COLLEGE IS AN ADVENTURE, but it shouldn't be a mystery.

Here, your child will follow a purposeful four-year sequence of academic study, personal reflection and hands-on professional development, guided at every step by mentors and supported by the resources needed for a stellar education — and a happy life.

BERRY WAS FOUNDED ON A SIMPLE AGREEMENT.

Martha Berry
offered an excellent
education.

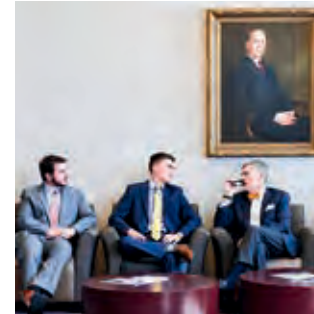

In turn, her students
helped build and operate
their school.

THE RESULT: This culture of exchange continues today through The Berry Compact. Students contribute their ideas, energy and hard work. Berry provides an education that ensures they have meaningful opportunities for academic, practical and personal development. The result is a sense of shared ownership and pride that makes all the difference in their lives.

MENTORSHIP is central to Berry's culture.

From day one, student and faculty mentors are on hand to lend perspective. Throughout the college years, each student is advised by a personal network of caring staff, coaches, professors and Berry alumni.

THE RESULT: Our students have someone to turn to at all times — whether looking for extra help with coursework or personal guidance. This connection to Berry mentors continues after graduation as our graduates enter a network of fellow alumni in every profession.

Berry graduates enjoy early career success — and LONG-TERM SATISFACTION.

Broadly educated and deeply prepared, they adapt their knowledge and skills to distinguish themselves in a wide variety of careers.
